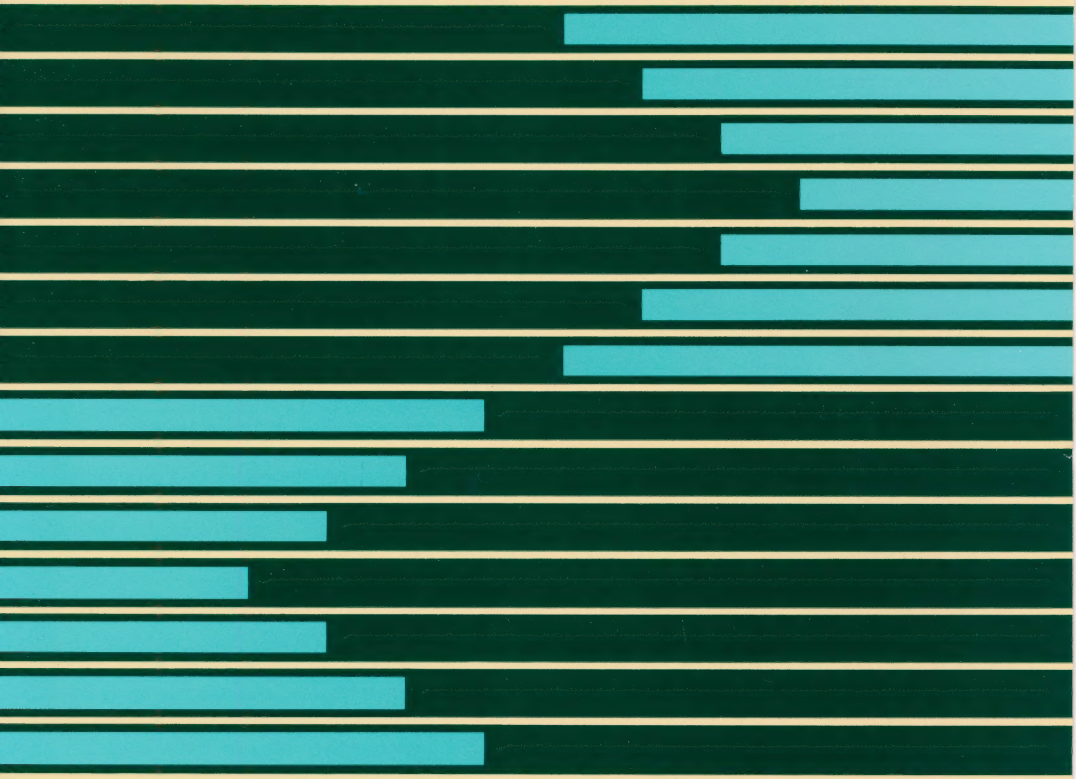
MICROSOFT®

PRODUCT LINE



The High Performance Software

Microsoft offers a wide variety of quality software and hardware products to meet your business and personal needs. Productivity tools. A full spectrum of languages. Hardware. Educational and recreational software. We also design systems software like MS™-DOS, the operating system for the IBM® Personal Computer.

The productivity tools are our newest series of software products for business and personal use. These high performance software products are designed to make use of the full capability of your personal computer.

They're equipped with powerful features to help you do your job better. And faster. Yet, for all that power, our productivity tools are still easy to learn and use. And once you've learned to use one, it's even easier to learn the others.

For instance, if you're familiar with the Microsoft® Multiplan® electronic worksheet, you'll learn to use Microsoft Budget or Microsoft Word faster. That's because our productivity tools are closely related. The commands look alike and work in much the same way in each product.

All of our productivity tools feature a message line that suggests your next action or explains any problems. And, most important, they let you work the way you think—in English.

For more information about our productivity tools, or any of our other products, call us or visit your computer dealer.

Productivity Software

1 **Microsoft Word**
A revolutionary word processing program.
For IBM PC.

2 **Microsoft Multiplan**
Electronic worksheet program.
For Apple® II, II + , IIe, III, CP/M®-80 and MS -DOS-based machines.

3 **Microsoft Cash Plan**
Cash-flow analysis program for use with Multiplan electronic worksheet.
For Apple II, IIe and MS-DOS-based machines.

4 **Microsoft Personal Finance**
Net-worth and cash-planning program for use with Multiplan electronic worksheet.
For Apple II, IIe and MS-DOS-based machines.

5 **Microsoft Budget**
Flexible planning and control program for use with Multiplan electronic worksheet.
For Apple II, IIe and MS-DOS-based machines.

6 **Microsoft Financial Statement Analysis**
Computes 18 key financial ratios from corporate balance sheets and income statements. For use with Multiplan electronic worksheet.
For Apple II, IIe and MS-DOS-based machines.

Educational Software

7 **Microsoft Typing Tutor II**
Typing instruction.
For Apple II, IIe.

8 **Microsoft muMATH™ Symbolic Mathematics Package**
Symbolic math/artificial intelligence development package.
For Apple II, IIe, CP/M-80 and MS-DOS-based machines.

9 **Microsoft muMATH™ System**
Symbolic math system.
For Apple II, IIe, CP/M-80 and MS-DOS-based machines.

10 **Microsoft muLISP™ Artificial Intelligence Development System**
For Apple II, IIe, CP/M-80 and MS-DOS-based machines.

Recreational Software

11 **Microsoft Flight Simulator**
An opportunity to pilot a single-engine airplane.
For IBM PC.

12 **Microsoft Decathlon**
A chance to "participate" in the Olympic event.
For Apple II, IIe.

Hardware

13 **Microsoft Mouse**
Hand-held editing and pointing device.
For the IBM PC.

14 **Microsoft SystemCard Package**
Adds two communications ports, additional memory, a clock and a calendar to the IBM PC.

15 **Microsoft SoftCard™ System**
Enables you to run programs written for the CP/M-80 operating system on your Apple II.

16 **Microsoft SoftCard Plus System**
Two-in-One: Increased video display capability plus the CP/M-80 operating system on one circuit card.
For Apple II.

17 **Microsoft SoftCard Premium System**
Three-in-One: Expanded memory, increased video display and full CP/M-80 capability on one circuit card.
For Apple II.

18 **Microsoft Premium SoftCard IIe Package**
Three-in-One for the Apple IIe: full CP/M-80 capability, 80-column video display and 64K memory on a single card.

19 **Microsoft RAMCard™**
Memory board for Apple II.

20 **Microsoft RAMCard**
Memory board for IBM PC.

Languages

21 **Microsoft BASIC Interpreter**
For CP/M-80 and MS-DOS-based machines.

22 **Microsoft BASIC Compiler**
For Apple II, IIe, CP/M-80 and MS-DOS-based machines.

23 **Microsoft Business BASIC Compiler**
For MS-DOS-based machines.

24 **Microsoft C Compiler**
For MS-DOS-based machines.

25 **Microsoft COBOL Compiler**
For Apple II, IIe, CP/M-80 and MS-DOS-based machines.

26 **Microsoft FORTRAN-80 Compiler**
For Apple II, IIe and CP/M-80-based machines.

27 **Microsoft FORTRAN Compiler**
For MS-DOS-based machines.

28 **Microsoft Pascal Compiler**
For MS-DOS-based machines.

29 **Microsoft Applesoft Compiler**
For Apple II, II + and IIe.

30 **Microsoft Sort**
Sorting and merging facility.
For Apple II, IIe, CP/M-80 and MS-DOS-based machines.

31 **Microsoft A.L.D.S.®**
Assembly language development system.
For Apple II and IIe.

32 **Microsoft Macro Assembler Package**
For CP/M-80 and MS-DOS-based machines.

33 **Microsoft Edit**
Text Editor.
For CP/M-80-based machines.

A Word About Microsoft.

We started in 1975 with one product, Microsoft BASIC, the first BASIC for microcomputers. Today, we offer the broad range of software and hardware products you see inside. And more.

When you buy a packaged computer system, there's a good chance you'll get Microsoft software with it. Like our MS-DOS, the operating system used by 9 out of 10 16-bit computers, including the popular IBM Personal Computer. Or Microsoft BASIC, the most widely used microcomputer language in the world. Or even one of our productivity tools. The fact is, more microcomputer manufacturers provide Microsoft software with their systems than any other brand.

Why?

Because Microsoft has a reputation for technical expertise and innovation in all areas of software development. And because our exacting standards, thorough research and quality control result in software products that combine powerful features with ease-of-use.

Microsoft. The High Performance Software.

Microsoft, Multiplan and A.L.D.S. are registered trademarks and MS, SoftCard and RAMCard are trademarks of Microsoft Corporation.
IBM is a registered trademark of IBM Corporation.
Apple is a registered trademark of Apple Computer, Inc.
CP/M is a registered trademark of Digital Research, Inc.
muMATH and muLISP are trademarks of The Soft Warehouse.
